

FANTOM

Welcome to Fantom

You are one of the first in the world to own a Fantom smartband. We have worked very hard to make this the best experience possible for you. We are excited to welcome you onboard!

We want you to know that you have the power to direct how Fantom functions in the future. As one of our first customers, your ideas and feedback means a lot to us and we will make every effort to take action on what you share with us. On support.getfantom.com you can leave your thoughts and help decide what features Fantom will have in the future.

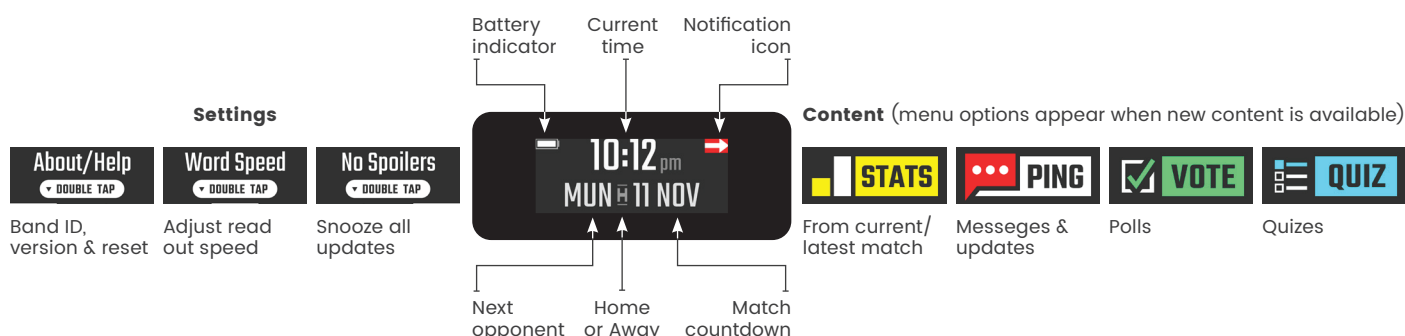

Getting Started

Setting up and getting started only takes a few minutes.

1. Download the iOS or Android app called **City Fantom**
2. Wake up the display by moving Fantom around (if it might need to be plugged in to the charger)
3. Make sure bluetooth is turned on and then pair your band to your phone through the City Fantom app
4. Sign in with your Cityzens account (or create a new one) in the City Fantom app
5. Strap on your Fantom with the display on the inside of your wrist and you are ready to go!

Keep in mind

- Fantom needs to be within a few meters of your phone to function properly
- The display is designed to be on the inside of your wrist and will not work properly if worn in another position
- Fantom needs to be charged every 2 days (with normal usage)
- During a match, live reporting will be automatically displayed
